RODNEY A. PEARSONS,	

REPORT OF THE Superintendent of Schools.

TO THE SCHOOL BOARD OF HILL:

This report will not be a report of the school work or school conditions of the year ending June 30th, 1922, as I assumed the duties of superintendent in this district in July last. Nor will my short service warrant my entering upon any extended discussion of the school conditions as I have seen them since visiting the schools beginning in September. I will, however, call attention to an immediate need of the schools, with a few other comments.

I found the Village schools in good condition, so far as organization is concerned, but in a very crowded condition so far as number of pupils per room is concerned. The problem for the school district of Hill to consider, at the present time, is that of providing another school room to accommodate the surplus scholars and relieve the crowded condition in the two rooms. It is a well known fact that the children in the first four grades need a large amount of individual attention, if they make the progress expected to be made in those years. It is impossible for Mrs. Blake, or any other teacher, with so many in her room, to do for these children what should be done, and have them efficiently prepared to enter the fifth grade. In the Grammar room, we expect the teacher to have the eighth grade pupils well prepared for whatever high school they choose to enter. This year, the room has a registration of thirty-six, and beside the attention needed for the eighth grade a reasonable amount must be given the pupils of the other three grades, of course, and they, too, must be prepared efficiently for promotion to the next grade. We are

expecting too much of both these teachers in the Village school under the crowded working conditions. It will be well worth the extra expense, if arrangements can be made to divide the grades on a different basis than now. This arrangement would necessarily be flexible. Some years the number of pupils in each grade might warrant combining the first three, when the next year's conditions might make it better to have but the first two grades together, etc. If efficient work is to be done, the need of more room is imperative.

If the Center school is to be continued next year it should be thoroughly repaired and cleaned and painted on the inside. The room is too dark for children to study in for five hours a day and the sanitary conditions hardly up to the requirements called for by the state.

The Hill schools seem to be well provided for so far as regular text-books are concerned, but sadly need more supplementary books.

The building at the Village is one for a small town to be proud of. It is well equipped and well taken care of. It has two good teachers working conscientiously for the advancement of the pupils, but keenly feeling their failure to do, with so many, what they fully realize ought to be done.

I just begin to feel that I know school conditions in Hill and assure you that I shall endeavor faithfully to co-operate with school board, parents and teachers in making them better.

I feel that I should express my appreciation to the School Board for their patience with me while troubling them with many questions this year, and for their courtesy at all times. I know that we all have the best interests of the schools of Hill at heart, for in that way we are sure to have the best interests of the town as a whole at heart.

Respectfully submitted,

FRED S. LIBBEY, *Superintendent.*
